

# 1 Wardrobe niche designed for smart space-saving

In-built wall niches give you space for storage without taking up extra room space.

# 2 Rooms planned for maximum & hassle-free movement

Every square foot you have invested in, has been put to good use with no dead space.

# 3 Outdoor terraces designed as per wind direction

Buildings are designed keeping the wind funnel-direction in mind, so that you enjoy gentle breeze.

# 4 Compact-size dry balcony for your daily needs

Spaces are planned keeping your requirements in mind, maximising utility and minimising hassle.

# 5 Large windows for ample light and ventilation

Large windows allow increased air circulation, as plenty of light and fresh air enters your home.

# 6 Juliet Balcony for enjoying a beautiful view

Welcome additional natural light standing in this compact balcony, as you enjoy a nice view too!
